CERT Area Incident Tracking and Prioritization Log **CERT Area: _____** **Date: _____** **Page: _____**

Keep in mind:

- Prioritize preservation of life over property; initially focus on known or suspected serious injuries.
- Understand and identify situations that your organization can respond to and which ones are beyond your capabilities.
- Do not deploy all responders to the field; keep some volunteers at the CERT Area Incident Command Post.
- Remain flexible; the situation and priorities can change based on incoming new information.
